SUBJECT INDEX

A

Abbas, A. K., 151
Abelson virus
  plasmacytomas and, 27
Acanthocytosis
  Kell-related antigen and, 285-86
Acetylcholine receptor
  experimental allergic myasthenia gravis and, 376
Acha-Orbea, H., 371, 425
Acquired immunodeficiency syndrome
  cachectin/tumor necrosis factor and, 642
Acquired immunity
  B-cell memory and, 538
  developmental pathways for, 551-52
Adams, J., 26
Adipocytes
  differentiation of, 122-23
Adipose tissue
  cachectin/tumor necrosis factor and, 637
Adrenal gland
  cachectin/tumor necrosis factor and, 639
Affinity maturation
  clonal selection and, 548-49
  somatic mutation and, 548
Allelism
  minor lymphocyte stimulatory system and, 686-90
Allergic rhinitis
  mast cells and, 59
Allogenetic diversity
  genetic polymorphism and, 482
Allograft rejection
  T-cell subsets and, 418-20
Allograft survival
  donor blood transfusions and, 473
Aman, P., 517
Amines
  mast cells and, 63
Anamnestic response
  germinal center cells and, 105
Anderson, P., 591
Anemia
  cachectin/tumor necrosis factor and, 642
Anorexia
  cachectin/tumor necrosis factor and, 639, 642
Antibodies
  leukocyte common antigen and, 352-55
  polyreactive, 520-21
    B cells producing, 521-26
  therapeutic
    antiglobulin response to, 431-32
Antibody-dependent cellular cytotoxicity, 411
Antibody-forming cells
  induction of
    germinal centers and, 103-5
Antibody response
  feedback regulation of, 105
  primary
    germline specificities in, 541
Antigen K21
  expression of, 490
Antigen-presenting cell
  T-cell adhesion to
    lymphocyte function associated antigen-1 and, 580
  T-cell receptor and, 466-67
Antigens
  cell surface
    test systems for, 485-86
  class I-restricted T cells and, 601-18
  exogenous
    B cells and, 519
  experimentally induced autoimmune disease and, 376
  foreign
    experimentally induced T-cell tolerance to, 466-69
  mast cells and, 64
  T-cell epitope and, 660-61
  T-cell recognition of
    structural basis for, 658-62
  transport in lymphoid tissue, 93-96
  tumor-specific, 489-90
Antiglobulin response
  therapeutic antibodies and, 431-32
Appetite suppression
  cachectin/tumor necrosis factor and, 642
Arachidonic acid
  metabolites of
    mast cells and, 63-64
Arthritis
  antigens involved in, 376
  collagen-induced, 390
    CD4 therapy for, 424
Astrocytes
  K4 antigen of, 488
Atkinson, J. P., 35
Auchincloss, H., 419
Augustin, A. A., 211
Autoantibodies
  systemic autoimmune disease and, 526-30
Autoimmune disease
  B-cell repertoire profile in, 526-30
  experimental animal models for, 662-68
  immune intervention in, 391-93
  monoclonal antibodies and, 423-24
  murine
    T-cell receptors in, 371-96
  T-cell involvement in, 668-69
  T-cell receptor and, 657-73
  T-cell receptor gene polymorphism in, 669-71
  treatment of, 671-73
Autoimmunity
  Ly1 B-cell compartment and, 541
  threat and control of, 552

B

Bach, F. H., 447
Bacterial infection
  T-cell subsets and, 423
Bacterial lipopolysaccharide
  cachectin/tumor necrosis factor and, 641
  host responses to
    lymphoreticular cells and, 626
  as polyclonal B-cell activator, 513
Baldwin, R. W., 17, 18
Bandeira, A., 209
Basophils
  differentiation of, 59-60
Battisto, J. R., 466, 695
Bazin, H., 27
B-cell activator
  polyclonal, 513-14
B-cell compartment
  Ly1
  germline specificities in, 540-41

B-cell leukemia
  Ly1 B-cell compartment and, 541
B-cell memory
  acquired immunity and, 538
  memory B cells and, 549-50
  somatic hypermutation and, 542-50
B-cell repertoire, 513-31
  Epstein-Barr virus and, 514-18
  profile in autoimmune disease, 526-30
B cells
  activation of
    leukocyte common antigen and, 359-60
  cachectin/tumor necrosis factor and, 636-37
  decay-accelerating factor on, 44
  development of
    positive selection in, 552-53
  differentiation pathways of, 537-53
  Epstein-Barr virus and, 22
  formation of, 111-34
    potential antagonists of, 129-31
  germinal center
    antigen presentation by, 100-1
  immunoglobulin genes in somatic hypermutation of, 446-47
  leukocyte common antigen expression in, 356
  memory
    B-cell memory and, 549-50
  polyreactive antibodies and, 521-26
  precursors in culture
    factors stimulating, 127-29
  precursors in mouse, 125-27
  self- and exogenous antigens and, 519
  T-cell receptor selection and, 215-21
  TH clones and, 149-53
Benjamin, R. J., 425, 426, 427, 431
Berek, C., 548
Bergstrand, H., 20
Berridge, M. J., 453
Beutler, B., 625
Bevan, M. J., 345, 471, 605
Bierer, B. E., 579
Bindon, C. I., 409
Bjorkman, P. J., 613, 617
Blanden, R. V., 601
Blau, H. M., 500
Blood-brain barrier
  cachectin/tumor necrosis factor and, 638-39
Blood group antigens
  decay-accelerating factor and, 45-46
Bloom, B. R., 466
Bluestone, J. A., 472
Bodmer, H., 601
Bone
  cachectin/tumor necrosis factor and, 640
Bone marrow
  cells in, 65
  complexity of, 131-33
  hemopoiesis in, 112-13
  long-term cultures of, 113-14
  phagocyte glycoprotein 1 in, 80
  platelet-derived growth factor and, 120
Bone marrow stromal cells
  autocrine and paracrine responses and, 119-21
  cytokines and, 118-19
  origin, derivation, and differentiation of, 122-23
Bone marrow transplantation
  host-vs-graft/graft-vs-host reactions in, 422-25
Bottomly, K., 151, 156, 224
Bovine serum albumin
  "filtered"
    tolerance to, 468
Braciale, T. J., 696
Braciale, V. L., 696
Brenner, S., 545
Bretscher, P., 428, 446, 448, 452
Bronchial asthma
  mast cells and, 59
Brostoff, S. W., 424
Bruggemann, M., 408
Buller, R. M. L., 422
Burakoff, S. J., 579
Burkitt's lymphoma
  chromosomal translocation and, 24-28
  viral etiology of, 20-23

C

Cachectin
  actions of, 641-42
  clinical uses of, 643-44
  disease states and, 642-43
  identification and isolation of, 627-28
  production of, 630-31
  receptor/postreceptor effects of, 633-34
  structure of, 629-30
  tissue targets of, 634-40
Cachectin gene expression
  regulation of, 631-33
Calcium free ion concentration
  T-cell proliferation and, 453
CAMPATH IG
  lympocytotoxic function of, 413-15
Cancer
  immune surveillance against cytotoxicity and, 315-16
Cancer cachexia
  cytokines and, 625
Cantor, H., 224
Carbone, F., 616
Carboxypeptidase A
  mast cells and, 63
Carcinomas
  ascites form of
    growth of, 15
Carrell, A., 11
Cartilage
  cachectin/tumor necrosis factor and, 640
Casali, P., 513
Caspersson, T., 5-6, 11-13, 24
Cassatella, M. A., 292
CD2 molecule
  interrelationship with CD3, 584-86
  T-cell adhesion and activation and, 580-84
  thymic ontogeny and, 586
CD4 molecule
  function of, 589
    mechanism of, 592-93
  interaction with major histocompatibility complex proteins, 587-89
  tissue distribution of, 586-87
CD8 molecule
  function of, 589
    mechanism of, 592-93
  interaction with major histocompatibility complex proteins, 587-89
  tissue distribution of, 586-87
cDNA
  decay-accelerating factor
    cloning of, 46-51
  encoding interleukin-3, 62
  encoding T-cell receptor, 176-78
Cell adhesion molecules, 123-24
Cell surface, 481-506
  differentiation of, 483-85
    control of, 496-505
  diversity of
    immunogenetic classification of, 481-83

Cell surface antigens
chromosome mapping and, 490-96
cultured cell mapping and, 486-88
functional mapping of, 496
maps for, 486-96
test systems for, 485-86
tissue mapping and, 488-90
Central nervous system
cachectin/tumor necrosis factor and, 638-39
Cerami, A., 625, 627
Cerottini, J.-C., 77
Charlton, B., 426
Chase, M., 466
Chiller, J. M., 468
Chondroitin sulfate
mast cells and, 62-63
Chou, P. Y., 49
Chow, K.-P., 695
Chromosome 13
murine
gamma genes on, 178-84
Chromosome 7
human
gamma genes on, 184-86
Chromosome mapping
cell surface antigens and, 490-96
Chromosomes
translocation of
oncogene activation by, 24-28
tumor suppressor genes of, 28-29
Chronic granulomatous disease, 277-301
biochemical defects in, 283-85
cellular biochemistry of, 278-81
diagnosis of, 296-97
gene for
chromosomal location of, 285-89
inheritance and genetic heterogeneity of, 282-83
molecular basis of, 293-95
treatment of, 297-99
Claman, H. N., 449
Clayberger, C., 616
Clifford, P., 20-21
Clonal selection
affinity maturation and, 548-49
Clonogenetic diversity, 482
Cobbold, S. P., 412, 413, 415, 417, 422, 426, 427
Coffman, R. L., 145
Cohen, I. R., 391
Cohn, M., 428, 446, 448, 452
Cole, M., 27
Coley, W. B., 628
Collagen
arthritis induction and, 376, 390
Commoner, B., 11
Complement
activation of, 36-37
Complement system
decay-accelerating factor of, 35-36
monoclonal antibodies and, 408-10
Concanavalin A
T-cell proliferation and, 448
Corticosteroids
autoimmune disease and, 672
Cory, S., 26
Coullie, P. G., 426
Coutinho, A., 209
Croce, C., 27
Cultured cell mapping
cell surface antigens and, 486-88
Cyclophosphamide
autoimmune disease and, 672
Cyclosporin A
graft-vs-host disease and, 470
Cyclosporine
autoimmune disease and, 672
Cytochrome *b*
neutrophil
respiratory burst and, 280-81
X-CGD locus and, 289-93
Cytofluorometry
cell surface antigens and, 485
Cytokines
antineoplastic properties of, 643
cloned stromal cells and, 118-19
disease states and, 625
extracellular matrix and, 119-20, 124-25
Cytoplasm
class I-restricted cytotoxic T cells and, 609
Cytotoxic T cells
cell biology of, 309-32
class I-restricted
peptide recognition by, 605-6
protein antigen recognition by, 604-5
specificity for peptides, 610-12
helper T cells and, 153
influenza virus nonglycoproteins and, 602-3
interactions of, 311-15
leukocyte common antigen and, 360-62
lymphocytic choriomeningitis virus and, 601
monoclonal antibodies inhibiting, 345-48
peptide competition and, 614-16
peptide recognition by, 612-13
synthetic peptides and, 616-17

D

Davey, J., 603
Davitz, M. A., 41
Decay-accelerating factor, 35-54
biochemical activities and physiological roles of, 37-39
biosynthesis and glycosylation of, 39-41
blood group antigens on, 45-46
expression sites and alternate forms of, 44-45
glycophospholipid anchor of, 41-44
identification and purification of, 37
paroxysmal nocturnal hemoglobinuria and, 36, 52-53
Decay-accelerating factor cDNA
cloning of, 46-51
Decay-accelerating factor gene, 51
Delayed-type hypersensitivity
T cells and, 153-54
Dennert, G., 311
Dermal tick infestation
mast cells and, 59
Developmental mapping
cell surface antigens and, 488-90
Dexter, T. M., 113, 114
Dextran sulfate
as polyclonal B-cell activator, 513
Diabetes mellitus
CD4 therapy for, 424
restriction fragment length polymorphism and, 671
susceptibility to
HLA system and, 669
1,2-*sn*-Diacylglycerol
T-cell proliferation and, 453
Dinitrochlorobenzene
contact sensitivity to
inhibition of, 466
Disodium cromoglycate
mast cell mediators and, 64

DNA polymerase
DNA repair and, 545
DNA replication
somatic hypermutation and, 546
Dohery, P. C., 601
Dresser, D. W., 468
Drug metabolism
cachectin/tumor necrosis factor and, 638
Duchenne muscular dystrophy
Xp21 deletion and, 286
Du Pasquier, L., 251

E

Ectromelia infection
T-cell subsets and, 422
Effector cell retargeting
immune response and, 433
Effector T cells
intracellular reorganizations in functions of, 318-20
Eichmann, K., 213, 224
Electron microscopy
leukocyte common antigen and, 351-52
Encephalomyelitis
experimental allergic
animal models for, 662-68
CD4 therapy for, 424
lymphotoxin and, 639
T-cell receptor in, 381-89
Endothelial cells
cachectin/tumor necrosis factor and, 634-35
Endotoxic shock
cachectin/tumor necrosis factor and, 643
cytokines and, 625
neutrophils and, 635
Enerbäck, L., 61
Enzyme-linked immunosorbent assay
cell surface antigens and, 485
Eosinophils
differentiation of, 60
Fc receptor on, 412
toxicity to schistosomula
cachectin/tumor necrosis factor and, 635-36
Epidermal cell growth factor
stromal cell growth and, 119
Epigenetic diversity, 482-83
Epithelial cells
kidney
surface antigen phenotype of, 488-89
Epstein-Barr virus
B-cell repertoire and, 514-18
B cells and, 22
lymphoproliferative disease and, 22-23
mononucleosis and, 22-23
as polyclonal B-cell activator, 513-14
Erythrocytes
formation of, 112
Ethanolamine
decay-accelerating factor and, 43-44
Eukaryotic cells
directed migration of, 310-11
Euthymic mice
antibody ablation in, 417-18
Extracellular matrix
cell surface antigen control and, 497
cytokines and, 119-20, 124-25

F

Farrell, J. P., 561
Fc receptor
mechanisms involving cell elimination by, 410-12
Feldmann, M., 449
Fisher, D. B., 452
Flajnik, M. F., 251
Flemming, W., 101
Flood, P. M., 222
Fluorescence-activated cell sorting
cell surface antigens and, 485
5-Fluorouracil
hemopoietic cells and, 114
Foley, E. J., 17
Foulds, L., 15
Fry, A., 699
Fujita, J., 67, 71
Fung, M. C., 62
Furth, Jacob, 15

G

Gao, E.-K., 470, 471
Gardner, P., 454
Gaspari, A. A., 468
Gastrointestinal tract
cachectin/tumor necrosis factor and, 638
Gefter, M. L., 546
Gene mapping
cell surface antigens and, 49-91
Genes
gamma, 187-91
human, 184-86
murine, 178-84
Gilliland, L. K., 433
Gimble, J. M., 111
Ginsburg, H., 61
Globopentaoxylceramide
mast cells and, 64
Glucosamine
decay-accelerating factor and, 43-44
Golgi apparatus
cell migration and, 310-11
reorientation of functions of, 318-20
Gordon, J. W., 501
Goronczy, J., 426
Grabstein, K., 62
Graft-vs-host disease
cachectin/tumor necrosis factor and, 637, 643
cyclosporin A and, 470
cytokines and, 625
T-cell subsets and, 421
Graft-vs-host reaction
bone marrow transplantation and, 422-25
Graft-vs-host resistance
T-cell receptor network and, 211
Granulocyte macrophage colony stimulating factor
TH1 cells and, 148
Granulocytes
bone marrow stromal cells and, 124
decay-accelerating factor on, 44
formation of, 112
leukocyte common antigen expression in, 355
Graves' disease
restriction fragment length polymorphism and, 671
Gregory, C. D., 24
Gress, R. E., 697
Guanine nucleotide-binding protein
respiratory burst and, 278
Gutstein, N. L., 425, 426

H

Habel, K., 18
Haemonectin
granulocyte-stromal cell associations and, 124
Hamaguchi, Y., 66
Hamilton, B. L., 421
Hammerling, U., 701
Harper, S. E., 422
Harris, H., 25, 28
Hashimoto's disease
IgG autoantibodies in, 526-27
Hauschka, T., 14-15
Hayashi, S.-I., 111

HeLa cells
decay-accelerating factor biosynthesis in, 41
Helminth infection
intestinal
mast cells and, 59
Helper T cells
cell biology of, 309-32
cytotoxic T cells and, 153
differentiation of, 154-59
immune responses and, 164-67
interactions of, 315-18
phenotypic marker for, 587
responses of
interregulation of, 159-61
Hemler, M., 495
Hemoglobinuria
paroxysmal nocturnal decay-accelerating factor and, 36, 52-53
Hemolytic anemia
Kell-related antigen and, 285-86
Hemopoiesis
anti-leukemic therapy and, 435
bone marrow and, 112-13
inflammation and, 119
Hemopoietic cells
leukocyte common antigen on, 158
Henle, G., 21
Henle, W., 21, 22
Hepatocytes
cachectin/tumor necrosis factor and, 638
Hepatotoxicity
cachectin/tumor necrosis factor and, 642
Herpes virus infection
T-cell subsets and, 422
Heterokaryons
cell type-specific surface differentiation and, 499-500
Histamine
mast cells and, 63
Holmberg, D., 225
Hood, L., 657
Hosono, M., 701
Host defense
mast cells and, 59
Host response
primary mediator of, 625-44
Host-vs-graft reaction
bone marrow transplantation and, 422-25
Huetz, F., 228
Human gamma globulin
tolerance to, 468
Humoral immunity
lymphoid tissue and, 91-106
Huzella, T., 2, 3, 11
Hybridoma 155.16
murine T-cell
CD4 receptor expression in, 592
Hybridomas
CD2 expression on, 583-85
Hybridoma technology
cell surface differentiation antigens and, 484
Hydrocarbons
sarcoma induction and, 17-18
Hydrocortisone
stromal cells and, 121
Hypersensitivity
delayed-type
T cells and, 153-54

I

Iccosomes
formation of, 98-100
tingible body macrophages and, 101
Idiotype sharing
T-cell receptor and, 215-18
IgE
helminth infestations and, 164-65
interleukin-4 and, 152-53
IgG
leukocyte receptors for, 411-12
Ihle, J. N., 62
Imboden, J. B., 454
Immune response
enhancing, 432-33
helper T cells and, 164-67
secondary
memory expression in, 550
Immunity
acquired
B-cell memory and, 538
developmental pathways for, 551-52
natural
carriers of, 539
developmental pathways for, 551-52
T cell-mediated
Leishmania infection and, 563
Immunoglobulin gene expression
genetic recombination in, 482
Immunoglobulin gene
hypermutation, 542-46
Immunoglobulins
Xenopus, 260-62
Immunological tolerance
induction of
monoclonal antibodies and, 425-30
Immunosuppression
monoclonal antibodies and, 408-25
Inflammation
hemopoiesis and, 119
Influenza virus
nonglycoproteins of
cytotoxic T cells and, 602-3
Inositol 1,4,5-trisphosphate
T-cell proliferation and, 453
γ-Interferon
activated T cells and, 120
cachectin/tumor necrosis factor and, 634
chronic granulomatous disease and, 297-99
Leishmania-induced lesions and, 564
lymphocytes expressing, 156
neutrophil cytochrome *b* and, 292-93
synthesis of
TH1 clones and, 147
Interleukin-1
cytotoxic T cell generation and, 448
macrophages and, 119-20
Schwartzman phenomenon and, 640
T-cell response to antigen and, 468-69
vascular endothelium and, 635
Interleukin-2
helper T cells and, 160
lymphocytes expressing, 156
synthesis of
TH1 clones and, 147
T-cell clone proliferation and, 450-51
T-cell proliferation and, 146
Interleukin-2 gene
activation of
three-signal model of, 455-65
two-signal model of, 452-55
Interleukin-3
B-cell precursors and, 132
cDNA encoding, 62
mast cell induction and, 66
multipotential stem cells and, 118
Interleukin-4
helper T cells and, 160
hemopoietic progenitors and, 120-21

IgE responses and, 152-53
lymphocytes expressing, 156-57
synthesis of
TH2 clones and, 147
T-cell proliferation and, 146
Interleukin-5
lymphocytes expressing, 156-57
synthesis of
TH2 clones and, 147
Interleukin-6
activated T cells and, 120
antibody-forming cells and, 131
mRNA for, 119
multipotential stem cells and, 118
synthesis of
TH2 clones and, 147
Interleukin-7
B-cell precursors and, 128-29
lymphocyte growth and, 118-19
Interleukins
autoimmune disease and, 393
Intrauterine infection
cachectin/tumor necrosis factor and, 643
Ionomycin
T-cell proliferation and, 460-63
Irradiation
autoimmune disease and, 672
Irvine, R. F., 453

J

Janeway, C. A. Jr., 158, 224, 316, 693, 696, 701
Jenkins, M. K., 445
Jonkers, M., 434

K

Kanakura, Y., 66, 68
Kantwerk, G., 424
Kappler, J. W., 157, 698, 699, 702
Katz, H. R., 64
Katz, M. E., 693, 696
Kauffmann, S. H. E., 417
Kawasaki syndrome
vascular complications of
cachectin/tumor necrosis factor and, 635
Kearney, J. F., 225
Kidney
epithelial cells of
surface antigen phenotype of, 488-89
Kincade, P. W., 111
Kitamura, Y., 59
Klein, E., 1, 20
Klein, G., 1, 19
Klein, J., 601
